Remember: we need enough playdough for both spaces each week! The President will communicate the needs of front space, as some classes may not use playdough until later in the year.

Please make sure the playdough is available prior to the start of each class. You can make batches weekly or make batches for multiple weeks and place them in the kitchen fridge. They last for a while in the fridge. Try to think about the colors of the season when making playdough and if you want, from time to time you can add glitter or scents to them for fun, but please no almond extract or anything nut-related. PLAYDOUGH

4 Cups Flour
1 Cup Salt
8 Tbs Cream of Tartar
4 Tbs. Vegetable Oil
4 Cups Water

After it cools enough to handle, knead for a few minutes. Let playdough cool for 4 hours before putting in Ziploc bags so that it doesn't mold.

Please make three batches and put each batch in a separate Ziplock plastic bag then label as such:

- Back Classroom Monday (date)
- Back Classroom Wed. PM (date)
- Front Classroom Tuesday (date)

****Make a triple batch and split it at the end to minimize dish washing.**

Job Title: **Projects Lead**
No. Assigned: 1
Reports To: *Facilities Board Member*

Note: This job starts during summer before school starts. Good to have summer and/or weekend availability for this job.

The Projects Lead is responsible for maintaining the overall safety and condition of the school property (indoors and outdoors) and managing a team of Project Committee Members.

The Lead oversees the maintenance and repair of kitchen appliances and plumbing, outdoor play structures, toys, and other school property, such as fences, doors, sandbox, furniture, etc. by helping maintain a running list of tasks that need to be completed. These tasks are primarily done during Project Days (4-5 per year, with the first one in August), but may also be assigned to Projects Committee Members as independent tasks, or in some cases completed by a hired professional. The job includes being on-site periodically to assess the property and to meet with various constituents.

The Projects Lead will work with the Facilities Board Member and the Director to determine which tasks should be tackled in which manner, the priority of current tasks, and the schedule of Project Days. He/she is then responsible for maintaining a list of Project Team contacts, planning the Project Days, assigning Independent Tasks, tracking the completion of Projects, and communicating with Facilities Board member before and after Project Days. It is helpful to have Committee members complete an aptitude survey at the Project Orientation Meeting to get an idea of team's skill set.

The dates for Project Days should be scheduled in May/June preceding the school year and may be adjusted depending on the availability of the Project Committee members, and the school and church calendars.

Job Title: **Projects Committee**
No. Assigned: 8-10
Reports To: *Projects Coordinator, Facilities Board Member*

Note: This job starts during summer before school starts. Good to have summer and/or weekend availability for this job.

Under the direction of the Projects Coordinator, Projects Committee members perform improvements and repairs on the school site (indoors and outdoors) and equipment as needed. The Projects Coordinator, along with Committee members, is responsible for ensuring the timely completion of committed projects.

All Little Hands parents are capable of working on Projects Committee. Committee members—with Facilities Board Member and/or Director approval—may solicit, coordinate, and supervise third party vendor activities on site. Additionally, members may directly perform site repair, equipment repair, and safety-related projects. Committee members should have an aptitude for participation in project-based work, including physical labor (e.g., painting, sanding, building, spreading gravel, toy repair).

Each Committee member is required to attend the Project Orientation Day, as well as a number of Projects Days during the school year, to be determined at the orientation. Projects Days are generally held on Saturdays and last 4-6 hours. There will be 3-5 Projects Days throughout the year at the discretion of the Project Lead and Facilities Board Member. Committee members may also choose to spearhead a project from start to finish (e.g., sand and stain the play structures, sewing).

Summer/September: All committee members attend a Project Orientation (details will be sent via email). The Projects Lead will go over job responsibilities in detail, review the list of Little Hands projects, and provide schedule of Projects Days. Committee members choose their Project Days and/or individual assignments.

Job Title: **Maintenance Day Coordinator**
No. Assigned: 1
Reports To: *Facilities Board Member*

Note: This job starts during summer before school starts. Good to have summer and/or weekend availability for this job. It is helpful, but not required, to have attended at least one Maintenance Day in a previous year.

The Maintenance Coordinator is responsible for coordinating activities related to cleaning the school. This includes setting up the schedule for and supervision of the Maintenance Day Toy Launderer and Readiness Assistant(s) and the Maintenance Assistants, who in turn run the actual Maintenance Days. At the beginning of the school year, the Maintenance Coordinator is responsible for running a training session for the Maintenance Assistants. Selection of which Maintenance Days each MA will supervise will take place at this meeting.

Each Little Hands family will sign-up for one Maintenance Day at the fall Orientation. The Maintenance Coordinator is responsible for maintaining these lists and working with the Registrar to ensure that absent and late-registering families are added to the list. He/she will coordinate with Jobs Board member to maintain a list of families that have completed their required maintenance day requirement, with the Facilities Board member and Purchaser to ensure that any supplies that are needed are noted, and with the Projects Lead should any maintenance checks turn up larger-scale issues.

Maintenance Days are often held on the first Saturday of each month from 8am-11:30am (time for participants), but the specific schedule is set by the Director and Facilities Board Member in June. Maintenance Assistants actually run the Maintenance Days, but it's a good idea for the Maintenance Coordinator to be available should anything unexpected arise, particularly for the first few of the year. Please refer to www.littlehands.org in the Classes & Registration section and refer to the online calendar for upcoming dates.

Job Title: **Maintenance Day Assistant**
No. Assigned: 4-6
Reports To: *Maintenance Day Coordinator*

Note: This job requires availability on several Saturday mornings. Maintenance Days are often held on the first Saturday of each month from 8am-11:30am, but the specific schedule is set by the Director and Facilities Board

The Maintenance Assistants (usually in pairs) are responsible for running the 5-7 Maintenance Days over the course of the school year in which the Little Hands parents all take a turn coming in to help clean the school and toys.

Responsibilities initiate with a training meeting at Little Hands at the beginning of the school year with the Maintenance Coordinator and other Maintenance Assistants (MA) to meet the team, review the job, and learn some of the specifics for Maintenance Days. Selection of which Maintenance Days each MA will supervise will also take place.

Maintenance Assistants may also wish to attend the first Maintenance Day to get a clear idea of what needs to happen when they supervise their own respective Maintenance Days. MAs will likely be asked to participate in some of the cleaning or organizational tasks on this first day.

In addition to the September training, each Maintenance Assistant will attend and help supervise three Maintenance Days during the school year. Two of these plus the training will cover the roughly 15 job hours and the third serves as that family's own Maintenance Day requirement.

Responsibilities include: communicating with the parents signed up to serve on a specific Maintenance Day to remind them of their upcoming obligation and helping to arrange for mid-morning snack; working with the Maintenance Coordinator on Maintenance Day participation should low attendance be indicated; checking on cleaning priorities prior to and reporting issues and progress back after each Maintenance Day to the Maintenance Coordinator and Facilities Board Member, and arriving 30-60 minutes early to set-up and staying 30-60 minutes after for clean-up. See the Little Hands Maintenance Day Communications Plan document for instructions on when and what to communicate to your three sets of Maintenance Day participants.

Job Title: **Maintenance Day Toy Launderer and Readiness Assistant**
No. Assigned: 2
Reports To: *Maintenance Coordinator*

Note: This job requires availability on several weekend dates. Maintenance Days are often held on the first Saturday of each month, but the specific schedule is set by the Director and Facilities Board Member in June and should be double checked [here](#) for availability before signing up for this job.

Monthly Task

In the beginning of the year, you will be shown how a classroom is made "ready" after a maintenance day. You will then be responsible for laundering various items and setting up the classroom after each maintenance day.

On each Maintenance Day for which you are assigned, you will visit the school twice. Once on Friday afternoon or Saturday before 7:30am to pick up washable items and once on Saturday after 1pm or Sunday afternoon or evening following the Maintenance Day to return various laundered items and toys to their appropriate locations. Washable items include curtains, aprons, pillowcases, puppets, baby doll dresses, and dress up clothes. If the timing and your washer capacity allow, you may also be asked to do a load or two of towels as well.

Please make sure that:

- curtains, aprons, and dress-up clothes are re-hung
- pillows and cushioned chair are re-covered
- puppets are put away
- baby dolls are dressed
- toys are returned to appropriate locations

The exact timing of your visits can be done at a time that works for you as long as items are put away before 9 a.m. Monday morning. Note, however, that this task needs to be done every weekend listed on the maintenance schedule, so it works best for someone who can commit in advance to most of these dates. It may be up to you to find and train a substitute if a regular Maintenance Day Readiness Assistant can't cover a date.

This position is a good fit for someone who is organized, tidy and efficient and who would prefer to just "get the job done" on the day it needs to be done!

Job Title: **Plant Maintenance**

Reports To: *Facilities Board Member*

Note: This job starts during summer before school starts.

Maintain plants based on the schedule determined at the beginning of the school year. Cut back plants, including bougainvillea, and remove weeds as necessary, in front (picket fence area) and along fence line in alley. The bougainvillea should be cut back regularly, approximately every other month, beginning in August at the first MD.

Check the drip irrigation system regularly and report all irregularities, problems, etc. to the Facilities Board Member. Once per year, clean out the filter in the drip irrigation system. Trim plants/check plants and/or hanging baskets before all school events and/or open houses.
